

**Thank you for your CruzTOOLS® purchase!** We take great pride in producing quality tool kits that are absolutely dependable. Below are selected product notes – if your questions aren't answered, please don't hesitate to contact us. **If you have a warranty issue, contact us directly and we'll take care of it promptly.** Your continued satisfaction is *very* important to us.

- If your kit contains a spark plug socket, use the adjustable wrench as the breaker bar. It can also be used for axle removal and to counter-hold a nut/bolt combination.
- There is additional information on spark plug sockets at [www.cruztools.com/sparkplug.html](http://www.cruztools.com/sparkplug.html).
- All kits ship in a poly bag. If possible, store it in the bag to keep wetness out – even the best tools will rust when moisture persists. If tools do get wet, take everything out of the pouch to air dry as soon as possible. When the original plastic bag that ships with the kit wears out, replace with a freezer-grade resealable bag.
- The 6-in-1 screwdriver provides, in addition to four screwdriver tips, two nut driver sizes – 1/4" and 5/16" (roughly 6mm and 8mm).
- Used your threadlocker or WD-40? Drop us a line and we'll send a replacement free of charge.

**Please check out our other products! In addition to tool kits, we have multi-tools, best-in-class T-handles, tire maintenance tools, and a great new line of *Musician's Tools*. Ask for a FREE catalog if you don't have one...**
